AWARENESS

STAKEHOLDER COLLABORATION
STRATEGIC ACTIONS

1. To promote early diagnosis & ensure optimal access to care
   a) Secure patient interest in policy decision making through advocacy at national, regional and international level
   b) Monitor the environment affecting the PID community and advocate for secure supply
   c) Improve PID clinical care globally
   d) Promote access and choice of treatment for optimum care
   e) Promote importance of early diagnosis globally

2. To develop, strengthen and support national member organisations (NMOs)
   a) Assist in establishing new national member organisations
   b) Provide information to NMOs and Associate Members
   c) Provide support to NMOs and Associate Members
   d) To promote the importance of a single NMO per country

3. To raise PID awareness globally
   a) Implement and support awareness campaigns
   b) Compile and promote key PID data
   c) Increase awareness through communication tools
   d) Develop innovative tools to collect patient data & collaborate with registries

4. To stimulate stakeholder collaboration
   a) Secure patients interest through global stakeholder collaboration
   b) Promote regional development
   c) Diversify and increase stakeholder partnerships
   d) Encourage national stakeholder collaboration
   e) Consider developing a humanitarian plan for future implementation
